✦ COMMUNICATION:

When parents, teachers, and students work together toward a common goal, it will help students have a positive experience at School. Although discipline is not a formal subject, it is one of the most important lessons learned. Discipline underlies the whole educational process and is the key to good citizenship and proper consideration for other people. Our students deserve the most positive educational climate for their academic growth. Therefore, this school -wide discipline plan will be in effect at all times. Our Code of Conduct contains the expectations we know are important for maintaining a trusting, safe, and positive environment where all students will learn. All students will know these expectations. Positive techniques will be used in the class and throughout the school to encourage appropriate behaviour (e.g., Positive Referral to the Supervisor/Principal/Vice Principal/Assistant Principal). Each teacher has a classroom management system plan to address discipline in the classroom. Please ensure that you and your child understand these rules and procedures. If the teacher calls you about a discipline concern for your child, please be supportive and responsive to work with the school, so your child's behaviour results in positive consequences.

✦ Purpose of a School-Wide Discipline Plan

1. Maintain a safe environment
2. Promote an orderly environment
3. Maintain a productive environment
4. Teach students to exercise self-control

Our Vision: To inculcate and develop 21st century skills in students and enable them to become productive and responsible citizens.

5. Provide consistent and equitable standards
6. Teach replacement behaviours

7. Enforce consequences (including logical and natural consequences)
8. Teach and model the right virtues
9. Sustain the right to a quality school environment for all students

✦ **Beliefs Related to Discipline :**

Teaching and learning of the intended curriculum for all students is the highest priority. Therefore, the misbehaviour of one student;

1. Will not be allowed to interfere with the learning opportunities of another student.
2. Will not be allowed to interfere with teachers' responsibility to teach all students.
3. Will not excuse the misbehaving student from successfully completing the learning objectives.
4. Discipline is part of the daily routine, not a disruption of the daily routine. In the handling of unacceptable behaviours, the focus must be on the judgment of the behaviour, not the student.
5. Staff must not respond to misbehaviour by taking it personally.
6. Staff has an obligation to show respect for students and parents at all times, regardless of how they themselves are being treated.
7. Changing behaviour takes time. Self-discipline is the expected outcome.
8. Every discipline situation is an opportunity to teach expected behaviour.
9. Teaching and modelling of acceptable behaviours, along with providing appropriate consequences (punishment) for unacceptable behaviours, will change unacceptable behaviours to acceptable behaviours.
10. Expected behaviours must be communicated, taught, and modelled on a daily basis throughout the school year.
11. Parents have a responsibility to ensure that their children's behaviours do not take away from a safe, orderly, and academically productive learning environment for others.
